Programme overview

The Master of Health Research Ethics (MOHRE) degree programme is the offspring of an exciting collaboration between the Faculty of Medicine, University of Malaya and the Johns Hopkins Berman Institute of Bioethics with the support of the U.S. National Institutes of Health, Fogarty International Center.

MOHRE aims to produce graduates equipped with the knowledge and skills necessary to engage in the field of health research ethics. Graduates will be positioned to help create and sustain a safe research environment.

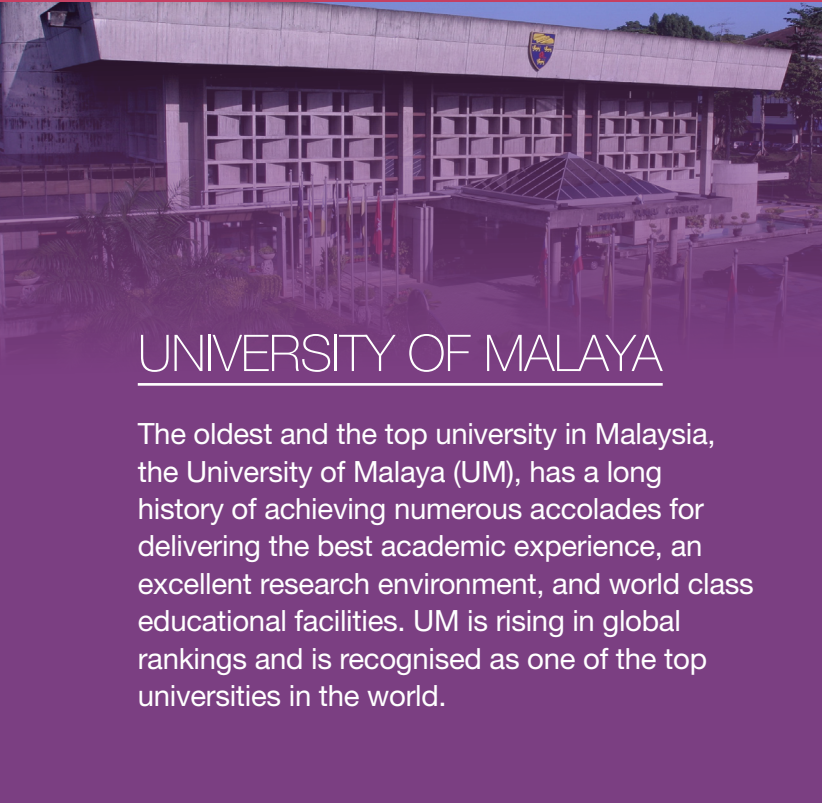

JOHNS HOPKINS
BERMAN INSTITUTE OF
BIOETHICS

Established in 1995, the Berman Institute is now one of the largest bioethics centers in the world.

Career opportunity

Graduates of the programme will be prepared for careers related to health research ethics, such as working with institutional review boards, academicians, clinical researchers, governmental agencies, and health institutions.

UNIVERSITY OF MALAYA

The oldest and the top university in Malaysia, the University of Malaya (UM), has a long history of achieving numerous accolades for delivering the best academic experience, an excellent research environment, and world class educational facilities. UM is rising in global rankings and is recognised as one of the top universities in the world.
